

# Imagine how we can reach the UK - DVD content listing

This DVD resource sets out a vision for how your church can become a fruitful, whole-life missionary community in today's world. Becoming such a community isn't fundamentally about programmes - though they do play a role. It's about the values that lie at the heart of our church communities - values that can ultimately transform our effectiveness as followers of Jesus wherever we are, whatever we do.

## DVD Contents

### Main Menu
